Sun And Snow Suggest Groundhog Saw Shadow

A slight suggestion of snow in the air this noon bore testimony for those who believe in the groundhog legend, that the animal came out today and seeing his shadow went back to sleep for six more weeks of winter.

According to the tradition, if the ground hog fails to see his shadow he stays out and prepares for an early spring. If the day is bright, however, he takes one look at his shadow and returns to bed. While the sun has been playing hide and seek from behind the clouds today, it is probable that if the groundhog stayed out any length of time this morning, he saw his shadow.

However, as encouragement for those who hope for an early spring and yet put their faith in the ground hog, C. A. Donnell, chief of the Chicago weather bureau, as reported by an Associated Press dispatch, yesterday said it doesn't make a particle of difference whether the groundhog sees his shadow or not. "We'll keep right on having varieties of weather for the next six weeks regardless of whether Feb. 2 is fair or cloudy," he declared, adding that the winter days in all probability would dominate because February and March are winter months.

ROBBING PETER TO PAY PAUL

In your left-hand trousers pocket you have the sum of fifty dollars. In your right-hand pocket is another fifty. For a period of time you spend entirely from the left pocket, until the fifty suffers alarming depreciation. Then you begin spending from the right pocket. Would you consider this economy and reduction of expenses? You certainly would not. It is unimportant whether the dollar comes from one pocket or another, whether your left hand or your right passes it out.

But, when tax commissions and politicians announce a program of tax reduction, it usually does precisely what has been described above.

It takes a dollar off the property tax and puts another dollar on the income tax. It shifts burdens from an inheritance tax to a sales tax. It discovers intangible taxes—supposed to lower some other tax, but increases the total volume of tax money taken from individuals and industry. And so it goes.

The average tax reduction program is a farce and misrepresentation. It robs Peter to pay Paul. It does

not recognize the fact that there is but one way to lower taxes—to spend less money.

Keep the pocket illustration in mind next time your public officials announce an economy drive. See if they actually do lower the cost of running the government, or simply dip into your other pocket. Then act accordingly.

COOPERATION—AND CIVILIZATION

The work shop for the member of a farm cooperative is in his home ballroom. Right there, in the country community, is where America is going to be made over in the next ten years or so. The city has had its run. While cities were heading the parade, it was city men who led it. Now good roads and automobiles are giving the country community almost everything that the city has, on top of the kind of life that the city never did and never will have.

Farmers' cooperative associations will head the parade in the new movement, as chambers of commerce led in city building. The farm community that gets the most out of this new age will be the one that does the most, and it will have to be through cooperation—work, not medicine.

The farm cooperatives are, in the full sense of the word, civilizing agencies. They are developing a fuller, finer life for the farmer and the farm family, as well as a more prosperous one. They are a social force as well as an economic machine.

The farmer who joins a cooperative, works with and for it, and gives it his loyal support, is working for himself, his neighbors and the American family generally. Agriculture has many problems—and the cooperative ideal touches them all.

Merchants of Money

BANKS

buy and sell the use of money. If they "buy" the use of your money in the form of savings deposits, they pay you interest.

If you carry a checking account, the bank pays you by giving you the privileges and conveniences of paying bills safely and easily by check.

When the bank makes loans or investments it is "selling" the use of money. It must try to make enough on these loans and investments to pay all expenses and leave a reasonable profit.

Bankers are merchants of money. They are more than that; they are the treasurers of a community; the trustees of its welfare and prosperity.

LAKE VILLA FORMER HOTEL KEEPER DIES

Madeline Myer and Alex
Doresky Married at
Park Ridge

The village was shocked early Monday morning by the news of the death of George Wallis, who has lived here for many years, but has been with relatives in Oak Park and Waukegan most of the winter. He was at the home of a niece on Chestnut street in Waukegan and was discovered lying on the floor of the bathroom at 4 a. m., apparently dead from heart disease, as he had been in his usual health up to that time. He has been in the employ of Paul Avery as electrician for a number of years and was highly respected.

Miss Madeline Myer, elder daughter of Mr. and Mrs. Harvey Myer, who formerly lived here, and recently moved to Harvard, was married last Thursday at Park Ridge where she has been employed, to Alex Doresky, who is in the employ of the Soo Line here. They are nicely settled in the Pedersen cottage, and we wish for them many years of happy wedded life.

The Epworth League enjoyed a four course banquet at the church dining room last Thursday evening and nearly fifty young people enjoyed the banquet and the program which followed. The Ladies Aid served for them. William Nelson was toastmaster and introduced the various speakers in his own charming manner. Marcella Radcliffe gave hints on how the well dressed young man may be expected to dress during the coming year, and Delbert Sherwood gave his impressions of the prevailing girls' styles. Miss Master-son led the group in a number of pep songs and Jack Rhoades, who, by the way, is quite a yodeler, gave a couple of delightful songs. Rev. Harold Case of Glencoe was the speaker of the evening and gave an inspiring message, bringing out his points clearly and well.

Last Friday was the ninety-sixth birthday anniversary of Mrs. Sarah M. Sherwood, and the day was very quietly celebrated at her home with reading the numerous birthday greeting cards, admiring the flowers and greeting a few friends who dropped in to offer congratulations. Miss Belle Richards of Antioch came down to spend the day with her.

Mrs. Charles Jarvis, who, with her husband, was proprietor of the Hotel Jarvis here for many years, passed away at her home in Waukegan Sunday and the funeral was held from the Immaculate Conception church Wednesday morning. Besides her husband she is survived by one daughter, Elizabeth Schoknecht, and a grandson, Jerry. Mrs. Jarvis has been ill for several years and her wonderful courage and vitality carried her through many critical periods. To her family we extend sincere sympathy. She was a member of Cedar Lake Camp of Royal Neighbors.

Rev. and Mrs. C. J. Hewitt were called to Lamolite on Saturday to conduct the funeral of a friend. Mr. Hewitt was pastor there several years ago.

T. B. Rhoades and son, William, are spending a few weeks at their place at Minong, Wis.

Mr. and Mrs. Frank McLaren have been improving their cottage on Burnett Ave. by adding a sun porch and other improvements. Joe Koelstra has done the work.

Miss Evelyn Swanson of Waukegan spent Sunday with her parents here.

Rev. and Mrs. C. J. Hewitt, Mrs. Swanson and Mrs. Chas. Hamlin attended a District Sunday-school meeting at Fox Lake church on Sunday afternoon. Mr. Hewitt was one of the speakers.

Mrs. Lester Hamlin and small son visited her parents, Mr. and Mrs. Arthur Nauta, in Waukegan over Sunday and Monday.

George Helm made a business trip to Elgin last week Thursday. Mrs. Al B. Maier entertained her Bridge club at her home on Cedar Lake last Wednesday afternoon, and prizes were awarded to Mrs. Leo Barnstable, first, Mrs. Fred Hamlin second, and consolation prize to Mrs. Joe Hucker.

Mr. and Mrs. Ray Kerr came down from Whitewater, Wis., last Thursday to attend the funeral of Mrs. William Weber.

Dr. E. O. Nohls, local dentist, examined the pupils of our school last week Friday for defects of the teeth and found a few who had none.

Miss Anna Soetck, Mrs. Helm's sister, has accepted a position in a family at Libertyville and began her new duties on Sunday.

Little Alan Mitchell, four year old grandson of Mr. and Mrs. Joe Hucker with whom he lives, had a peculiar accident nearly two weeks ago when he fell against a stump cutting his tongue so badly that it was necessary to take five stitches to close the wound. He was taken to St. Theresa hospital where he is recovering.

This lamp gives the NEW LIGHT everyone is talking about

It's a simple thing but what a difference it makes in your living room lighting! Hidden under the shade of this new lamp is a reflector that focuses indirect light up to the ceiling and diffuses it evenly over the whole room. It's the bright-but-soft, flattering kind of light you need for entertaining. Because there is no glare, not a single heavy shadow, it's especially fine for bridge games. And there is a separate switch that turns on direct light for reading.

Pictured right is the outstanding reflector lamp value we know of. Its three-candle base is beautifully finished in gold or in bronze. Its pleated silk Celanese shade comes in gold, tan, rose or green, edged in braid to match. See it today at your Public Service Store. Only

CHRISTIAN SCIENCE CHURCHES

"Love" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, January 20.

The Golden Text was, "Beloved, let us love one another: for love is of God; and every one that loveth is born of God, and knoweth God" (1 John 4:7).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "The Lord hath appeared of old unto me, saying, Yea, I have loved thee with an everlasting love: therefore with lovingkindness have I drawn thee" (Jeremiah 31:3).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "That God is a corporeal being, no body can truly affirm. . . . Not materially but spiritually we know Him as divine Mind, as Life, Truth, and Love. We shall obey and adore in proportion as we apprehend the divine nature and love Him understandingly, warily, no more over the corporeality, but rejoicing in the influence of our God" (p. 140).

AMUSEMENTS

AT THE GENESEE

"Cynara," from the International stage success, coming to the Genesee Theatre in Waukegan Feb. 8 for four days, is a perfect vehicle for the inimitable talents of Ronald Colman.

Indeed, even the suave, urbane Colman has made few pictures more artistic and entertaining than this one. Advance reports from Hollywood—and from disinterested observers, too—had placed "Cynara" far up in the list of the season's best efforts.

The story, of course, is made to order for Ronald Colman, and, framed with the Samuel Goldwyn standard, it makes a great human document. It is crammed full of situations that arise to rare reality and touch deep poignancy. The word "sophisticated" with regard to motion pictures has been very much abused, but here is one instance in which it must be used. For sophistication fairly sticks out of "Cynara," but, contrary to the usual story, it exerts a strong appeal for the so-called masses.

Colman was never better than in the role of Jim Warlock, the young English barrister who, much against his better judgment, is drawn by his best friend into what is called a harmless flirtation and which results in disaster for everybody concerned.

Kay Francis, in the role of Warlock's young wife, gives one of those finished performances which is her wont, only this time she is better than ever. And a newcomer from England named Phyllis Barry soars to the heights in this, her first Hollywood effort. Miss Barry is bound to be in great demand because of this artistic portrayal.

That woman holds no monopoly in household accomplishments was demonstrated in Chicago last week when four of Chicago's best-known bachelors pitted their skill against four distinguished hostesses in a unique table-setting contest. The contest was a feature of a social tea held on Friday at the Sears Clinic of Household Science, 7 East Van Buren street, attended by the socially prominent of the city and suburbs.

The male competitors were Arthur Meeker, Jr.; David Leavitt, Walter Frazier and Richard A. Boaler, whose table was awarded first place for its artistic simplicity. Their feminine opponents were Miss Janet Fairbank, Lady Hastings of London, Mrs. Lawrence Williams and Mrs.

Ambrose Cramer. The contest was an object lesson to demonstrate the advantages of quality table appointments over inferior grades. Four tables were poorly set and four were of superior quality in appointment and adornment.

The men showed unusual originality and versatility as table setters, and in the choice of their table equipment and adornments. Mr. Meeker chose a children's table for his entry. His "good" table had as a centerpiece a reproduction of the Swiss Alps with cows and farmers trudging up the mountain peaks with little houses interspersed—his own handiwork. The centerpiece of the "bad" table was a beautiful girl doll.

Gurnee Wins Over Antioch Grade Team by One Point

With a 13-12 score the Gurnee first team basket ball boys of the Grade School defeated the Antioch team last Saturday on Gurnee's floor. In the lightweight contest, Antioch lost to the opponents 2-1.

Five Grade School Boys To Enter Throw Contest

Five Antioch Grade School boys will be entered this Saturday in the annual free throw contest to be held at Gurnee with the six teams, Fox Lake, Lake Villa, Grayslake, Allendale, Gurnee and Antioch participating.

Each boy entered in the contest is allowed twenty-five shots in the contest and the winning school is decided by the aggregate points held. No individual awards are made.

Libertyville Plays

Antioch Here Friday

One of the biggest home games of the season will be played Friday night when Libertyville comes to the Antioch floor. Libertyville won the Conference tournament this year and also won from Antioch earlier in the season. There is always a scrap when these two teams get together and this is bound to be the case Friday night.

We want to see everyone at this game to give our team much support. Don't forget to be here Friday night.

Arlington Makes Double Win Here Saturday

Arlington, by defeating Antioch 31-12 and 28-24 last Friday night, avenged the double defeat inflicted by the Antioch players early in the season. The games which were played on the victors' court, were somewhat along the free-for-all line with several fouls checked against each team.

The heavyweight struggle started rather slowly, but picked up speed toward the last part of the first quarter. When the boys rested between first and second quarter, the score was 10-6 with Arlington in the lead. In the second quarter each team added four points before the fun was fired.

Antioch caught up with the Arlington boys in the third quarter only to drop back again in the last period to lose 28-24. Koelling, and S. Szasz divided 18 of Arlington's 28 points, while Palaske and Keulman shared 12 of Antioch's markers.

Monday, Coach Reed gave a talk on the subject, "Technocracy" to the high school assembly.

John Descher who now lives at Channel Lake has transferred to the Antioch High School from Morton High at Cicero. He is a member of the Junior class.

Girl Scout News

written by Bernice Sherman
At the Girl Scout meeting Monday evening we played a compass game. On the floor were drawn three circles with the eight points of the compass written in. The object of the game was to learn the eight points of the compass. There was a girl in the center of each circle who spun a pie pan and called a point of the compass. The direction called would try to get the pie pan giving the name of her point and patrol.

Bluebird patrol won with a score of 14, Nightingale scored 12, White Bear and Lion tied each having 9 score points. We then practiced a dance for our play. All the scout members were present at the meeting.

HintsMeat Left Overs
Can Be Disguised

Left overs from meat, one of our most expensive foods, can be made as attractive as an entirely new dish if the cook will dress up what is left from the meal before.

Left overs from a beef or pork roast are often served cold and sliced, but they can be served in a large variety of other ways. Pork, especially, and also veal, are delicious diced and added to a pea and celery and pickle salad. A dish which is appetizing may be made from beef by grinding the meat, adding tomatoes to it, and using the mixture to stuff green peppers which are then baked in a shallow dish with a very little water at the bottom.

Beef and pork are also an excellent addition to macaroni, spaghetti, and rice dishes. For these recipes the meat should be ground. Beef ground and mixed with mayonnaise makes a delicious sandwich filling. In any of these dishes, left-over chops or steaks may be used in place of roast meat.

Ham Recipes

Ham is a meat which lends itself well to after-dishes. Escalloped ham makes an appetizing hot dish. The ham is first ground, then mixed with two or three beaten eggs to which milk is added, and the whole baked in a casserole.

Ham salad may be eaten either as a sandwich filling or meat dish. First grind the ham and to it add diced poiled eggs, pickles and salad dressing.

When boiled potatoes are served with ham, and some of both are left over, the ham and potatoes can both be ground or diced, to them a little milk, slightly thickened, added and then baked in a casserole. This makes a dish which is a far cry from the prosaic serving of left-overs as ham.

Left over chicken can be served in a salad, creamed with biscuits, and in a variety of ways.

Fashion Details

Blistered materials are reported as an omnipresent note in spring fabric news. Where the fabric in a frock is of a smooth crepe, there is a tendency to use a blistered orandy or crepe for trimming. Seersucker and matelasse are the two popular blistered fabrics.

Those who keep an eye on fashions have noted a waning in the popularity of the high extremely fitted waistline and prophesy a slightly lower, less fitted line will replace it within the next few months.

Spinach strained through a sieve is delicious as the flavoring for a cream soup.

Save Plants for Spring

If you have received plants for Christmas, or any time this winter, don't throw them out because they have ceased to bloom. If they are cut down to the roots and saved until late spring, they can be successfully transplanted to your out-of-doors garden.

Fruit in a pewter bowl is an attractive centerpiece for the table, especially for breakfast.

Navy and white will be as popular as ever this spring both in printed materials and in combinations of plain materials. Brown and white, which has occupied a minor place in the world of prints, this year is slated to be a headliner.

Gray which is another favorite of fashion this spring will be worn with both gray and navy accessories.

Perforated shoes, according to the stylis, are definitely in the picture at present. Gray and navy shoes will be as popular as black and white. Reptile shoes will be less popular than previous seasons this spring.

For the Kitchen Floor

A coat of wax or varnish on the kitchen linoleum will keep it from becoming dirty immediately after scrubbing. Wax of course is much less permanent than varnish, but the latter will darken a very light colored linoleum.

To Soften Water

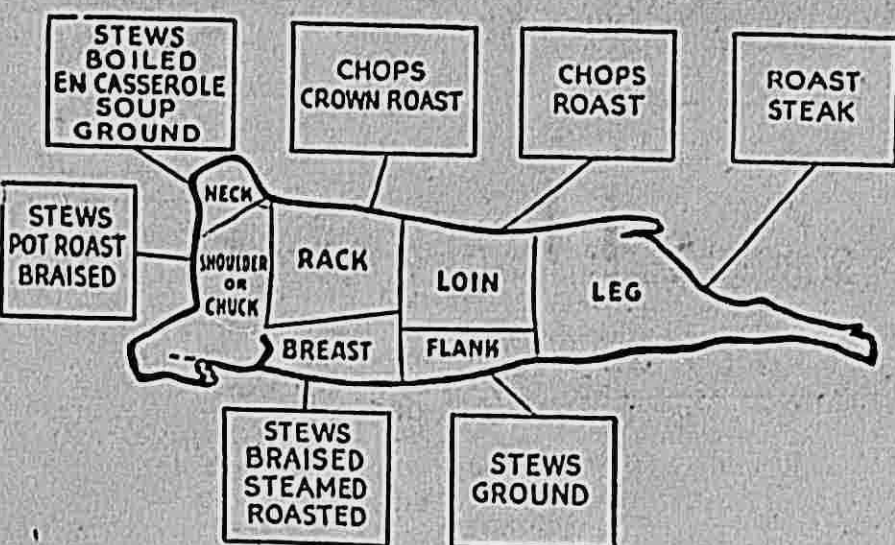

If your skin is sensitive to hard water, put a little ordinary baking soda in your bath water or the water for cleansing your face.

Bewildering

A THOROUGH knowledge of the various cuts of lamb and mutton and the ways in which they can be prepared in different appetizing forms will add to the appetite appeal of your menus, and enable you to effect a real saving in the meat bill each week by taking advantage of the less expensive cuts.

First, as to distinguishing between lamb and mutton in making your purchase, the lamb carcass is naturally smaller than the mutton. Good lamb is a rich, pinkish red in color, while mutton is grayish or brick red. The bone of young lamb is red in color, and porous. In mutton, the bones are larger, and very white and flintlike.

The neck, shoulder and breast cuts of both lamb and mutton are inexpensive and rich in flavor. The chief problem is to make sure that these cuts are of good quality.

brought out in the finished dish, and in this connection the use of sugar as one of the standard seasonings is a recent but highly important culinary development.

Spanish Stew

Cut one pound of neck of lamb in small pieces, roll in flour and brown in a tablespoonful of dripping. Add 1 chopped onion, 3 tomatoes chopped, 2 green peppers chopped and 2 tablespoonfuls of sugar. Sauté all together for 10 minutes, turning often with spatula. Then add 4 cupfuls of hot water, 1½ teaspoonfuls of salt, ¼ teaspoonful of pepper, and simmer one hour. Add 1 cupful of green peas, 1 cupful of corn cut from the cob and ¼ cupful of rice, with additional water, as necessary. Continue to simmer until the rice is well done, adding water if the stew becomes too dry.

Sauce Creates New
Spinach Delicacy

Something different in spinach is made by adding to the vegetable a mock Hollandaise sauce. The recipe for this sauce is as follows:

Work a tablespoon of flour into a generous portion of butter, then work into it the juice of a lemon; put on stove and when warm add milk and stir until thick and smooth before pouring over vegetable. This quantity will require slightly more than a cup of milk.

Yes, Jim. I put a little box on my counter, 'For the Blind.' And they paid for it."

GRANT JUNIORS WILL PRESENT ASSEMBLY

Losing Typists Will Give Program and Dance to Winners

The junior class will present on Friday, Feb. 3, the one act play, "Squaring It with the Boss." The play which is one of comic situation will run about thirty minutes. The characters are Clifford Hansen, who will play the part of James Greening, the young husband; Helen Stratton, the young wife; Dale Johnson, the infant; Ruth Stafford and Elizabeth Valenta, the maiden aunts; and William Klein, the boss.

This is the third in a series of assembly programs given by the various classes.

A typing tournament has just been concluded in the commercial department. The contestants, who were divided into 2 groups, agreed at the beginning that the losing team should provide an evening of entertainment for the winners. Members of the losing group are now preparing the program for Friday evening, Feb. 10. It will consist largely of a one act play, the plot of which has been built around the events in a business office on a certain Saturday morning. Those who will have parts in the play are: Arthur Schueneman, Raymond Miller, Jessie Walk, Beatrice Jorgensen, Tom Graham, Harold Juul, Glen Johnson, Marie Miller, and Floy Walt. Following the play there will be refreshments and dancing.

The faculty attended a teachers' meeting at Waukegan Saturday, Jan. 28. The first part of the program was given over to the Chicago Singers who offered one hour of vocal music. Following the concert Dr. Alexander Melkjohn, professor of philosophy at the University of Wisconsin, spoke on the subject, "The Schools and the Social Order."

Dan Werhan, who has just completed the first semester's work at Columbia College, Duquaine, Iowa, has been visiting his parents at Long Lake. Dan was a visitor at the high school on Monday.

The Grant cagers lost a close game to Hebron on the Hebron court last Friday night. The final score was 36 to 32. The lead changed hands three times during the first quarter, but Hebron went into a six point lead at the half, 20-14. The Red and White started clicking then and

pulled up to within two points of the green-clad basketballers. A pair of free throws for Hebron made the score 36-32, just before the finish. The Bulldogs outscored Hebron from the field, but Hebron's accuracy at the free-throw line spelled disaster for the local boys. The Grant players, however, showed much improvement and, with Klaus, who has been ill, back at center position, are expected to cause Huntley some trouble when they invade the Bulldogs' lair Tuesday night.

A cast selected from the junior class will present a one-act play in a special assembly program at Antioch High School on Thursday morning, Feb. 16, at 10:00 o'clock. In exchange Antioch will present a program of music at Grant on Friday, Feb. 24. Each of the programs will be about forty minutes in length.

A meeting of the Little Four conference was held Saturday at Woodstock. A change in the conference organization has been necessitated by the extension of invitations for membership to Richmond and Huntley. The conference is now known as the Little Six with McHenry, Hebron, Marengo, Grant, Richmond, and Huntley as members.

A very interesting assembly program given by the freshman class last Friday, Mary Maxine Ault announced the program which consisted of a tap dance by Lucille McDonough, a selection on the saw by Horace Thoresen, and lastly a hilarious basketball game between a team of freshman boys and a team composed of freshman girls. The boys won the game by a score of 22 to 2.

A fun fest was held in the gymnasium last Thursday evening for the benefit of the music department. The evening's activities consisted of a basketball game between Richmond and Fox Lake grade schools, a women's volleyball game, a men's volleyball game, a girls' basketball game, and a few bouts of boxing. The feature bout of the boxing was the fight between Charles Smith of Fox Lake and Donald Pease of Grayslake, during which excitement ran high.

The Ferris pictures, a series of famous historical paintings of American history will be shown at the Fox Lake church Wednesday evening, Feb. 8. These pictures will be in the form of beautiful stereopticon slides and an admission of 10 cents will be charged to pay expenses. Mr. Ford of Waukegan will give the lecture and show the slides.

H. S. Scott drove to Naperville to call on friends.

Fox Lake Post Gives Dance Saturday

Newly organized Post No. 703 of the American Legion made up chiefly of Legionnaires from Fox Lake and Lake Villa, will launch their activities with an inaugural dance to be given at Tanel's Palace Garage, Fox Lake, Saturday night.

The dance is being given in an effort to raise money for purchasing colors for the organization. A formal installation with state officers present is planned for some time in the future. The organization now has sixty members.

Fox Lake Aid Meets With Mrs. Tope

Landry Store Broken into by Burglars Saturday

The Ingleside Ladies Aid will hold their February meeting at the home of Mrs. Merrill S. Tope on Wednesday, Feb. 8, at 2:00 P. M. Cars will be at the church to take anyone who does not have transportation. The annual election of officers will be held at the meeting.

A Hard Time party was held by the Officers Club of O. E. S., Sorosis Chapter, at Grayslake. It was well attended. After a few games of bridge, and 500, all in costume walked in the prize march. Prizes were given to the best dresses for the occasion.

Normand Tweed was home from Lake Forest College to celebrate his birthday Tuesday.

Frances Pike has returned to Grant High School after an absence of one month due to illness.

The Fox Lake Garden Club held an all day meeting at the High School last Thursday.

Burglars entered Landry's Store Saturday night. They took only a small amount of cash in the drawer.

A processional and recessional march has been added by the choir to the Ingleside Community church worship service held each Sunday at 11:00 A. M. The worship service is thus made more beautiful and creates a spirit of worship and reverence.

Metals in Powdered Form
One development of the metallurgical industry is the manufacture of several metals in pulverized form in which shape they are applied to other metal surfaces by the spraying method. Nickel, chromium, silver, platinum and other metals have been very successfully made use of in this shape, but the greatest demand is for copper. There has been created a demand for 3,000,000 pounds of powdered copper annually.

First "Neckties"
Neckties, formerly known as "cravats," were first extensively worn in Europe during the French revolution. The custom was borrowed from the Croats, or Cravats, as they were called, in the Seventeenth century.

Angora Wool Softest
The hairs of the angora rabbit are from 6 to 10 inches long and are said to furnish the softest wool in the world. An adult rabbit may be sheared three or four times a year and yields about three ounces of wool at a clipping, which is worth about ten times as much as equal quantity of sheep's wool.

Small Books
Among the smallest books is the 27-page, illustrated Schloss English Almanac presented to the public museum at Oshkosh, Wis., by Mrs. W. W. Waterhouse. It is a half-inch wide, seven-eighths of an inch long and one-eighth of an inch thick. It was printed in 1842.

The Brave Can Forgive
The brave only know how to forgive; it is the most refined and generous pitch of virtue human nature can arrive at. Cowards have done good and kind actions; cowards have even fought, nay, sometimes even conquered; but a coward never forgave; it is not in his nature.—Sterne.

Sales Talk
In one of the city's department stores the other day a man approached a perfume booth where a clerk was trying to make a sale. After some persuasive talk she said: "Would you like to see some of the odors?"—Indianapolis News.

Qualification
In order to be a candidate it is necessary only to make a statement of what is wrong with things. It is not regarded as at all necessary to make a statement of what the candidate proposes to do about it.—Fort Wayne News-Sentinel.

Life of "Big Gun"
The War department says that the life of a big gun is 300 to 500 rounds. This does not mean, however, that the gun is absolutely worthless after 500 rounds, only that it has to be reloaded. A big gun would be considered a 14 or 16-inch gun.

Toad Maligned
From earliest days the toad has been represented as full of deadly poison, but, as everyone knows, it is one of the most harmless of reptiles, its body containing nothing of a poisonous nature.

Once a Tropical World
The story that the ancient coal deposits tell is that of a great change in climatic conditions that has been brought about through the ages. Scientists believe that at one period in the world's history tropical conditions must have been present the world over.

An Extended Trip
If about to embark on a long trip, have the eaves and roof of your home examined before you leave. Then there will be no nasty leaks causing ruined walls and furnishings while you are away.

Uncle Eben
"De wust thing about arithmetic," said Uncle Eben, "is dat a whole lot o' folks gits de idea dat any kind o' figgerin' is all right if dey kin finish up wif a number dat has a dollar mark in front of it."—Washington Star.

Fish Respond to Colors
Color plays a part in the lives of reptiles and fish. Iguanas prefer yellow foodstuffs and are attracted by yellow flowers. White fish are more readily caught when baits of certain colors are used.

Romance Everywhere
One constantly hears that "the romance of discovery is dead." But nothing could be farther from the truth. Only the other day a school-girl recognized a stone lying under a hedge near Maldstone as a fine Stone age ax. Astronomers constantly discover new worlds, while untapped realms of spiritual experience wait for all to explore.—London Mail

Photography
J. H. Schultze has been called the "pioneer of photography." He obtained photographic copies of writing in 1727. Investigations were later carried on by Samuel Parr, James Watt, Josiah Wedgwood, H. Davy, Joseph Niepce and Duquerre in France. The development of the modern rapid progress of photography was begun with the introduction of the dry collodion process by Scott Archer, 1851.

Fish Fished Fisherman
A sixteen-year-old lad, of Tangalle, Ceylon, while fishing at the mouth of a river was carried more than 50 yards out to sea by a big fish. Then he relinquished his rod and swam back to safety. Two fishermen went out in a boat and picked up the rod. A big fish then sprang to the surface, broke the line and escaped.

Hen Smoked Cigarette
A workman threw away a good-sized butt of a lighted cigarette. A brown leghorn hen instantly snatched at it, and fortunately got the unlighted end in her beak. It lodged there and at every attempt she would make to swallow it, it would smoke. She took puff after puff until the entire cigarette was smoked.—Farm Journal.

Man's Supremacy
Scientists tell us that what has lifted man above the brute creation with which he has so much in common is the fact that he can touch each of his fingers with his thumb! No other living thing can do that. Try experiments with your own hand and see what a difference it would make if you could not do this simple-seeming act.

Counting a Million
The time it would take to count a million coins would depend upon the person. In the counting room at the Treasury department the silver is usually weighed rather than counted. An estimate has been made, however, that counting at the rate of 1 a second and 8 hours a day, it would take a person about 35 days to count one million coins.

Red Indian Surgeons
It is evident that American Indians had knowledge of surgery, since trapped skulls of aborigines are still in existence. It is probable that their surgeons also performed amputations.

Illinois to Spend \$3,750,000 for Highways

A state highway construction program to cost more than \$3,750,000 is getting under way, the department of public works and buildings has revealed. Most of the contracts have been awarded and call for an expenditure of more than \$3,000,000 for downstate highways and more than \$750,000 in seven counties in the Chicago metropolitan area. More than 175 miles will be paved in the downstate, together with grading, resurfacing, bridges and grade separations.

Commission Says State Can Save \$16,000,000

Pointing out two-score ways to reduce taxes by reorganizing activities and holding down appropriations, the Carlson commission on taxation and expenditures has reported to the governor and the legislature that a saving of about \$16,000,000 could be made for the next biennium without seriously injuring the function of state government. Calling for united action, the commission declared it is the legislators' duty to assist Governor Horner in his tremendous undertaking to give Illinois good government at the least possible cost, regardless of party affiliation.

Old English Carnival

In October is held the goose fair, believed to be the oldest existing carnival of its kind in England. The sheriff of Nottingham gives a big ball to which all the mayors and mayresses of the land are invited. It is supposed to be held to aid the lace trade and each guest is asked to wear some article of lace, old or new, who in turn receives a Nottingham lace handkerchief.
